SMA Negeri 2 Payakumbuh | Payakumbuh, Indonesia

Mathematics and Natural Sciences (MIPA) | 2019 - 2022

EXPERIENCE

Secretary of Information and Communication | UKM IT Cybernetix

Padang, West Sumatra | Jul 2024 - May 2026

- Managed internal and external information flow and handled administrative documentation to ensure effective communication across departments.
- Coordinated communication strategies and oversaw digital information platforms to enhance organizational branding.

Intern (Apprenticeship) | Dinas Kehutanan Provinsi Sumatera Barat

Padang, West Sumatra | May 2025 - Jul 2025

- Developed a digital guest book desktop application using JavaScript to replace manual recording methods.
- Assisted in data entry, document management, and daily administrative tasks.

Creative Content & Design Specialist | KaumDesign

Indonesia (Hybrid) | Feb 2023 - Mar 2024

- Managed digital content creation with data-driven trend analysis and content strategy planning.
- Created visual designs, selected multimedia elements, and developed copywriting to optimize social media publications.

Literacy Volunteer | Komunitas Rak Buku Kota Biru

Payakumbuh, West Sumatra | Jun 2020 - Jul 2023

- Supported book collection management through donation drives and improved visitor services.
- Engaged in community educational activities aimed at increasing public interest in reading and literacy.

Head of Author Division & Producer | DUA PIJAR

Payakumbuh, West Sumatra | Jul 2020 - Jun 2022

- Led the author division in planning, scriptwriting, and production of creative content.
- Produced the film "The Reflection", overseeing creative team coordination and script development.

ACADEMIC & INDEPENDENT PROJECTS

Ticketing-System | Vue, Firebase, Tailwind CSS

Engineered an Enterprise Ticketing and Helpdesk system with PWA capabilities, SLA tracking, and Gemini AI integration to streamline customer support.

dameydesk.netlify.app

AI-VirtualKeyboard | Python

Developed an AI-driven virtual keyboard that allows users to type via hand gestures captured by a camera, eliminating the need for physical hardware.

Virtual-Photo-Studio | Vue.js

Built a modern, web-based photobooth application enabling users to capture instant photos with an interactive user interface.

damesnap.vercel.app

Teacher-Data-Management-Frontend | TypeScript

Created a frontend web application specifically designed to manage and organize teacher data efficiently.

LostLink (Lost-And-Found) | Vue.js, Firebase

Collaborated on a platform to help users report lost items, submit found items, and perform real-time item matching with secure communication.

lostlink-35a35.firebaseio.com

EcoGoals App | React Native, Expo, JavaScript

Developed a mobile application focused on eco-friendly habits. Collaborated with Dinas Lingkungan Hidup Payakumbuh to integrate actual environmental data.
